

COMMONWEALTH OF PENNSYLVANIA
OFFICE OF THE GOVERNOR

GREETINGS:

It gives me great pleasure to join with the Coalition on Adult Basic Education to recognize September 20-24, 2021, as Adult Education and Family Literacy Week.

Education is the cornerstone of our great commonwealth as well as a doorway to opportunity. Pennsylvania thrives when our citizens are given the tools for success in areas such as language, numeracy, health, finance, digital literacy, and more. These topics are the foundation for additional skill building to ultimately allow individuals to better themselves, their community, and their nation. Having a passion for learning and ambition in pursuit of education outside of the traditional classroom shows true admirability and dedication. The commonwealth is privileged to have such skilled, talented, and determined individuals to represent our values and traditions. I am confident this week will have a positive impact on the commonwealth and its citizens for many years to come.

As Governor, and behalf of all citizens of the Commonwealth of Pennsylvania, I am honored to recognize September 20-24, 2021, as Adult Education and Family Literacy Week. Please accept my best wishes for continued success.

Tom Wolf
