| 3 | Assessment with Artificial Intelligence | Fri, Dec 1 | Wed, Dec 6 , 2pm ET | Sun, Dec 10 | Tues, Dec 12 , 2pm ET |

* Includes course launch call at 2pm ET

Module Post Date is when asynchronous content is posted in Google Classroom, including all the materials needed to complete module tasks (e.g., assignments and related resources).

Live Workshops offer support for the task in each module. We suggest trying the task before the session so you can come prepared to engage in Q&A, idea sharing, and collaborative learning.

Due Dates serve as a suggested timeline to help stay on track with class participation and course completion. Instructors will provide personalized feedback on all tasks.

Office Hours are open sessions to discuss feedback on tasks and ask any course-related questions to the instructors.
